	We expect the party to start super soon .. what do you think should we reduce the 0.00004 order to safe money for later? on the other hand it's at the moment a good support .. the better CEL does the less people search and fall for FUD .. so .. hmm					
	Connor Nolan				2020-07-14 12:30:41.003 PM	
	I say keep it there					
	Connor Nolan				2020-07-14 12:30:52.003 PM	
	I'll be online momentarily					
	Johannes Treutler				2020-07-14 12:33:40.003 PM	
	Maybe we keep all orders as they are and ic case CEL drops below the 0.000036 BTC order we will unleash a concentrated buy with all that we have .. that's at least what Harumi suggested .. in case it gets really bad we may also use already something of the buying power from next week .. but I hope we don't need to have this discussion at all					
	Johannes Treutler				2020-07-14 12:48:42.003 PM	
	harumi: and Johannes, let's not take it for 'granted' but if the market really starts bleeding, you have my permission (and will talk to Connor about it too) to do more purchase. We will call it advance weekly purchase or whatever from next week or something					
	Johannes Treutler				2020-07-14 12:49:09.007 PM	
	and she told us we can move 25 BTC to Liquid to be fast in case we need them					
	Johannes Treutler				2020-07-14 12:49:46.007 PM	
	she called it a "mental security"					
	Johannes Treutler				2020-07-14 12:49:57.007 PM	
	let' do it
